SWE 206

Lab02 Software Process Models
Section 53

Semester 232

Abdulmajeed AlOthman

Abdullah Al Abbas – 202156190

My partner is absent and you told him to do his work alone. So, I will solve it by myself then we will check with each other after he finishes his work.

Problem 1)

Model: Incremental Development Model

- Because we need to handle changes smoothly as the company moves its application from Windows to web.

Problem 2)

Model: Incremental Development Model

- Because we need to Adapt to changing user needs and market trends like YouTube short and Instagram reels.

Problem 3)

Model: Waterfall Model

- Because the requirements are clear and straightforward.
- The app is One-Time Development, no need to do anything after finishing it.
